

Long Cycle Life 12v 24v 48v 60v 72v 200ah 400ah Battery Pack for Electric Wheelchairs

Basic Information

- Place of Origin: china
- Brand Name: Enook
- Model Number: Enook Battery Pack
- Payment Terms: TT PAYPAL

PRODUCT PARAMETERS

12V: 50AH/100AH/150AH/200AH/300AH
24V: 50AH/100AH/200AH

Product Specification

- Working Altitude: $\leq 2500\text{m}$
- Working Humidity: 65+-20%RH
- Size: 255*165*215mm
- Voltage/Capacity: Customized
- Product Name: Enook Battery Pack
- Net Weight: 9KG
- Specification: 12V50AH
- OEM/ODM: Acceptable
- Highlight: 72v 40ah Battery Pack,
48v 60v 72v Battery Pack,
40ah Electric Wheelchairs Battery Pack

Product Description:

The Lithium Ion Battery Pack is available in a range of voltage and capacity options, including 48v, 60v, and 72v, with a 40ah capacity. This makes it a versatile solution that can be customized to meet the specific needs of different electric bike models. One of the key features of the Lithium Ion Battery Pack is its natural cooling system. This means that the battery pack does not require any external cooling mechanisms, which helps to reduce the overall weight and size of the battery pack. Additionally, the battery pack is designed for IP65 installation, which means that it is resistant to dust and water, making it suitable for use in a range of different environments.

Brand Name	enook
Model Number	Lifepo4 Lithium Battery Packs
Battery Size	18650
Place of Origin	China
Weight	Customized
The charging ratio	50C
The discharge rate	100
Nominal Voltage	12V
OEM/ODM	Acceptable
Nominal Capacity	5Ah
Color	Black
Type	Li-Ion/lithium/lifepo4
Brand	OEM Customized
Weight	0.9KG
Features	High Power Density
Keywords	Lithium Ion /lifepo4 Battery Pack
Applcation	E-motorcycle

The Lithium Ion Battery Pack has an impressive cycle life of 3000-6000 cycles at DOD80%/25degree/0.5C. This means that it can be charged and discharged thousands of times without losing its capacity, making it a cost-effective and reliable energy storage solution for electric bikes.

The Lithium Ion Battery Pack is also available for OEM/ODM customization, which means that it can be tailored to meet the specific needs of different electric bike manufacturers. This makes it a flexible and versatile solution that can be used in a range of different applications. In summary, the Lithium Ion Battery Pack is a high-quality and reliable energy storage solution that is designed to meet the demanding power needs of electric bikes. With its natural cooling system, IP65 installation, and customizable voltage and capacity options, it is a versatile and flexible solution that can be used in a range of different applications.

Features:

Product Name: Enook Battery Pack

Capacity: 640Wh

Installation: IP65

Working altitude: $\leq 2500\text{m}$

Working humidity: 65+-20%RH

Looking for a reliable and high-quality lithium ion electric bike battery pack? Look no further than the Enook Battery Pack! With a capacity of 640Wh and IP65 installation, this battery pack is perfect for electric bikes that need to operate at altitudes up to 2500m and in humid conditions. Trust the Enook Battery Pack for all your electric bike battery needs.

PRODUCT PARAMETERS

12V: 50AH/100AH/150AH/200AH/300AH

24V: 50AH/100AH/200AH

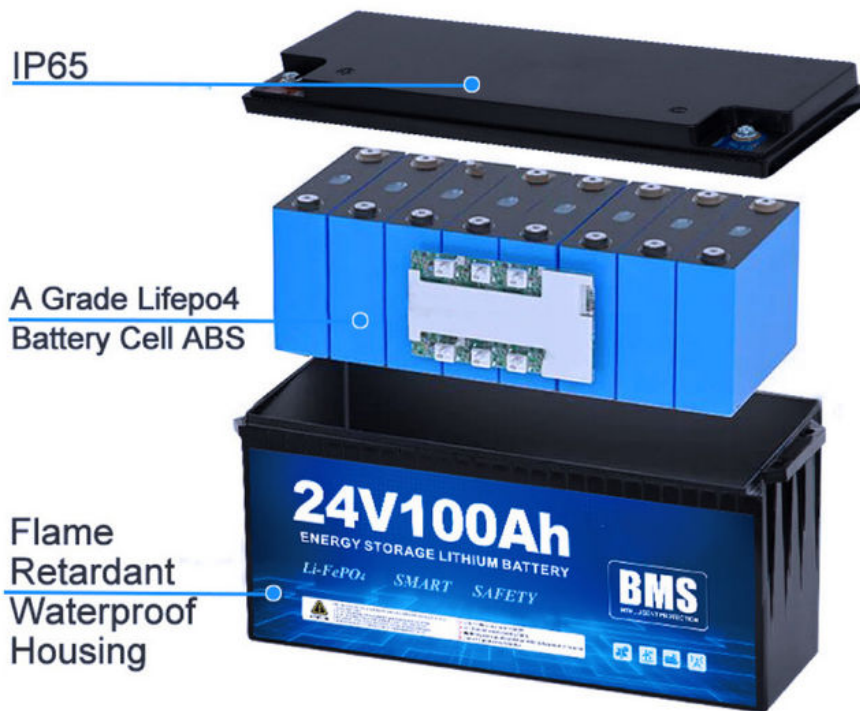

Applications:

The Enook Battery Pack is perfect for use in Lithium Ion electric bike battery pack applications. It provides a reliable and long-lasting power source that allows electric bikes to travel long distances without the need for frequent recharging. The battery pack is also ideal for use in electric scooters, as it can provide the power needed to navigate through crowded city streets.

In addition to electric bikes and scooters, the Enook Battery Pack can also be used in other applications, such as backup power for home appliances, camping equipment, and emergency lighting. The compact size and lightweight design of the battery pack make it easy to transport and store, making it an excellent choice for outdoor enthusiasts and emergency responders.

Overall, the Enook Battery Pack is a versatile and reliable power source that is perfect for a variety of applications. Whether you need a lithium ion electric bike battery pack or backup power for your home, this battery pack is an excellent choice. With its high capacity and long-lasting performance, you can be sure that your devices will stay powered up and ready to go whenever you need them.

PRODUCT COMPOSITION

Customization:

The battery pack has an Installation rating of IP65, making it suitable for outdoor use. It has a Specification of 12V50AH and is available in 48v 60v 72v 40ah battery pack options. The Enook Battery Pack is designed to work in a humidity range of 65+-20%RH and an operating temperature range of -10 ~+50°C. With our product customization services, we can tailor the Enook Battery Pack to meet your specific requirements. Trust Enook for high-quality Lithium Ion Battery Packs that are reliable and efficient. Contact us today to learn more about our product customization services.

Support and Services:

The Lithium Ion Battery Pack product comes with comprehensive technical support and services to ensure optimal performance and longevity. Our team of experts is available to assist you with any questions or issues related to the product, including:

Installation and setup

Troubleshooting

Performance optimization

Maintenance and servicing

Warranty and repair services

In addition, we offer training and educational resources to help you get the most out of your Lithium Ion Battery Pack. Our goal is to provide you with the highest level of customer satisfaction and support possible.

Packing and Shipping:

Product Packaging:

The Lithium Ion Battery Pack product will be safely packed in a sturdy and secure box, with appropriate padding materials to prevent any damage during shipping. The box will also contain a user manual and a warranty card.

Product Shipping:

The Lithium Ion Battery Pack product will be shipped via a reliable and reputable shipping carrier. The estimated delivery time will depend on the destination and shipping option selected by the customer. The customer will receive a tracking number and updates on the status of their shipment.
