Product Description

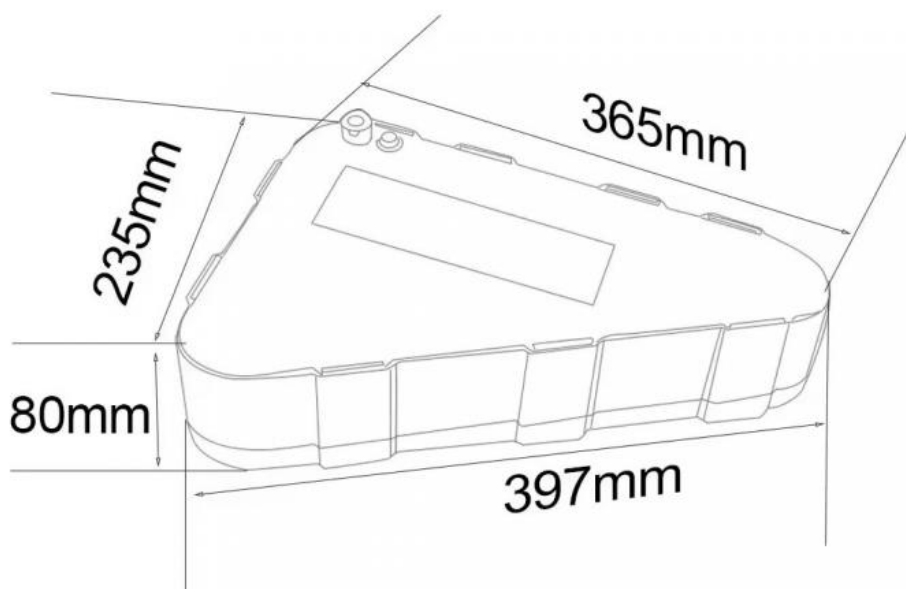

Product Description:

The E Bike Battery is available in multiple voltage options, including 36V, 48V, 52V, 60V, and 72V, allowing you to choose the best fit for your electric bike. Its black color gives it a sleek and modern look, blending in seamlessly with your bike's design.

With a storage temperature range of -10°C to 40°C and a discharge working temperature range of -20°C to 60°C , this battery can operate in various climates, ensuring that you can still use your electric bike in extreme weather conditions. The E Bike Battery's size is $367 \times 110 \times 90.5\text{mm}$, but it can also be customized to fit your specific electric bike model.

One of the most significant advantages of the E Bike Battery is its 18650 Battery technology, which provides a safer, more stable, and longer-lasting energy source. This battery has a longer lifespan than traditional lead-acid batteries and is also lighter in weight.

In conclusion, the E Bike Battery is an excellent investment for anyone looking to upgrade their electric bike's power source. Its 3.2V 202Ah Lithium-ion battery and 18650 Battery technology ensure that you will have a reliable and efficient power source for years to come. With its multiple voltage options, black color, and customizable size, this battery is the perfect fit for any electric bike model.
